About VisionShark Consulting LLC

Visionshark Consulting LLC is a strategic advisory firm specializing in high-level consultancy within the oil and gas sector. With a global network of verified buyers, sellers, and mandates, we serve as a trusted intermediary in facilitating transparent, secure, and successful petroleum transactions. Our services are designed to protect all parties involved through strict compliance, thorough documentation, and professional representation.

For Sellers

At **Visionshark Consulting LLC**, we offer a structured pathway for sellers to engage with vetted buyers through our consultancy services. Sellers who wish to collaborate with us enter into a consulting agreement authorizing our firm to represent their interests in the market. As part of this process, we require:

- A signed consulting agreement.
- Seller's **CIS (Client Information Sheet)**.
- Official **procedures and product specifications**.
- **Recent SGS reports** or equivalent quality verification documents.
- Details for issuance of **ICPO (Irrevocable Corporate Purchase Order)**, including the recipient's name and company details.

This information allows us to securely present seller offers to our network of verified buyers and brokers, with whom we share **mutual NDAs**. Any request from outside parties will be subject to your explicit approval before any sensitive documentation is shared. We maintain strict confidentiality and ensure all communications align with the seller's instructions and approval protocols.

For Buyers

Buyers engaging VisionShark Consulting LLC as their official consultant must authorize us to act on their behalf in sourcing and securing petroleum products. To facilitate smooth and efficient transactions, we require buyers to provide the following:

- A signed consulting agreement.
- Buyer's **CIS (Client Information Sheet)**.
- For traders, a **valid trader's license**.
- Any additional documentation that supports transaction readiness, including proof of funds (POF) when required.

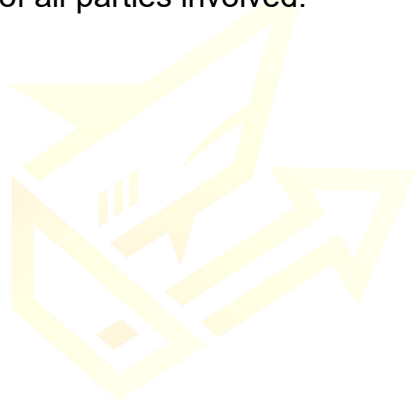

This enables us to effectively represent the buyer to trusted sellers while ensuring all communications and negotiations are managed with professionalism, discretion, and adherence to compliance standards.

For Official Mandates

We work closely with **verified mandates** representing either buyers or sellers. To maintain transparency and credibility in all dealings, we require mandates to provide:

- Full **company information**.
- An official **mandate appointment agreement** signed by their principal (either the buyer or seller).
- Clear proof of authorization to act on behalf of the party they represent.

By ensuring proper verification, we support mandates in facilitating successful transactions while safeguarding the interests of all parties involved.
